PORTFOLIO POLYUREA

MPU® ALIPHATIC QUALITY COATINGS

Maximum UV resistance in polyurea, for long-lasting protection of surfaces

▶ high abrasion resistance

▶ Self-leveling

▶ Topcoat

MPU® M04T-UV Polyurea Self-Leveling Flooring System

Our polyurea self-leveling flooring systems are self-sealing with no need for a topcoat, saving labor costs and ensuring fast, easy construction. aliphatic quality coatings provide maximum UV resistance for long-lasting surface protection.

- ▶ One-piece molding
- ▶ Suitable for outdoor use
- ▶ Perfect surface sealing
- ▶ Waterproof
- ▶ Durable toughness and wear resistance
- ▶ Noise reduction and vibration damping

UV-RESISTANT POLYUREA TOPCOAT

MPU® M06T-UV (flat topcoat)
MPU® M08T-UV (high abrasion resistance)

ALIPHATIC QUALITY COATINGS

Maximum UV resistance in polyurea, for long-lasting protection of surfaces

MPU® COATINGS excel on high-traffic surfaces with exceptional strength and toughness. They seal parking decks and industrial floors reliably, preventing cracks and moisture penetration while enhancing safety and durability with slip-resistant properties.

- ▶ Quick turnaround and return to service
- ▶ Suitable for high-traffic applications
- ▶ Allows cleaning with a high-pressure cleaner
- ▶ Excellent crack bridging properties
- ▶ Flexible, seamless, toughness, and impact-resistant, compared to other systems.
